

Product Requirements Document (PRD)

Product Name

TailorConnect India

Product Vision

Create India's largest location-based digital marketplace where local tailors can create online storefronts and connect with nearby customers looking for tailoring, stitching, alteration, custom clothing, and garment-related services.

Problem Statement

Current Problems

For Customers

- Difficult to find trusted local tailors online.
- No centralized platform for comparing nearby tailors.
- Most local tailors rely only on word-of-mouth marketing.
- Customers often don't know which tailor serves their area.
- Lack of authentic reviews and service quality indicators.

For Tailors

- Limited online presence.
 - Dependence on local foot traffic.
 - No easy way to attract nearby customers digitally.
 - Lack of affordable digital storefront solutions.
 - Difficulty showcasing completed work to potential customers.
-

Goals

Business Goals

- Onboard 10,000+ tailors across India.

- Become the default search platform for tailoring services.
- Generate revenue through premium listings and advertisements.
- Build location-specific tailoring communities.
- Create a trusted review-based ranking ecosystem.

User Goals

- Quickly find nearby tailors.
 - View tailor profiles and contact details.
 - Connect directly via WhatsApp.
 - Compare multiple tailoring providers.
 - Choose tailors based on verified customer reviews and ratings.
-

User Types

1. Customer

Can:

- Register account
 - Search nearby tailors
 - Filter by location
 - View tailor profiles
 - Contact tailor via WhatsApp
 - Save favorite tailors
 - Leave reviews and ratings
 - Upload service feedback photos
 - Share service experience after receiving tailoring services
-

2. Tailor (Service Provider)

Can:

- Register shop
- Create digital storefront
- Upload portfolio images
- Receive customer inquiries
- Manage profile
- Update service areas
- Showcase completed work in gallery
- Reply to customer reviews

- Receive customer contact details and email inquiries
-

3. Admin

Can:

- Approve/reject tailor listings
 - Manage users
 - Manage locations
 - Moderate reviews
 - View analytics
 - Remove fake reviews and spam content
-

User Registration Flow

Customer Registration

Required Fields:

- Full Name
- Email Address
- Mobile Number
- State
- District
- City
- Profile Picture
- Password

Profile Verification

Profile image capture:

- Front camera access only
 - Live camera capture
 - No gallery upload
 - Optional selfie verification
-

Tailor Registration

Required Fields:

Personal Information

- Full Name
- Shop Name
- Email Address
- WhatsApp Number
- Mobile Number
- Password

Location Information

Step 1:

Select State

Step 2:

District dropdown dynamically loads based on selected state

Step 3:

City dropdown dynamically loads based on selected district

Business Information

- Shop Address
- Years of Experience
- Services Offered
- Description
- Opening Hours
- Profile Photo
- Shop Photos
- Service Radius (e.g., 5km, 10km, 20km)

Verification

Optional:

- GST Number
- Aadhaar Verification
- PAN Verification

Location Matching System

Customer Default Experience

Upon login:

1. Detect user's current location.
2. Show nearby tailors automatically.
3. Sort results by:
 - Distance
 - Ratings
 - Review Score
 - Verified Status

Manual Location Selection

Customer can manually choose:

State → District → City

and search other locations.

Location Data Hierarchy

India

→ State

→ District

→ City

Example:

Maharashtra

→ Pune District

→ Pune City

Chhattisgarh

→ Korba District

→ Korba City

This structure will be used for:

- Registration
- Search
- Recommendations
- SEO pages

Tailor Digital Storefront

Every tailor receives a public profile page.

Example URL:

/tailor/raj-tailors-korba

Storefront includes:

- Shop Name
- Profile Image
- Cover Image
- Description
- Services
- Experience
- Ratings
- Reviews
- WhatsApp Button
- Call Button
- Location Map
- Portfolio Gallery
- Customer Feedback Section
- Review Ranking Badge
- Verified Tailor Badge (if approved)

Tailor Work Gallery

Tailors can showcase their completed work and designs.

Gallery Rules

- Camera access only for uploads
- No gallery/file upload from device storage
- Real-time camera capture required
- Multiple images allowed
- Before/After stitching photos supported
- Categorized portfolio:
 - Men's Wear
 - Women's Wear
 - Bridal Wear

- Alterations
- Uniforms
- Designer Collections

Benefits

- Builds trust with customers
 - Demonstrates tailoring quality
 - Improves profile visibility
 - Helps customers compare workmanship
-

Search Features

Search Bar

Search by:

- Tailor Name
 - City
 - Area
 - Service Type
-

Filters

- Men's Tailoring
- Women's Tailoring
- Bridal Wear
- Alterations
- Boutique
- Uniform Stitching
- Custom Design

Additional Filters:

- Verified Tailors
 - Open Now
 - Top Rated
 - Distance
 - Highest Review Score
 - Most Reviewed
-

Recommendation Engine

System recommends tailors based on:

- User location
- Search history
- Previous inquiries
- Popular nearby providers
- Review ratings
- Customer satisfaction score

Priority:

1. Same City
2. Same District
3. Same State
4. Nationwide

Ranking Formula

Tailors will be ranked based on:

- Average Rating (Out of 5)
- Number of Reviews
- Positive Feedback Percentage
- Verified Status
- Distance from Customer

Example:

★★★★★ 4.9/5 (250 Reviews)

will rank higher than

★★★★☆ 4.2/5 (20 Reviews)

WhatsApp Integration

Every profile displays:

"Chat on WhatsApp"

Button action:

<https://wa.me/{number}>

Customer can directly start conversation.

Customer Inquiry & Email Sharing

When a customer contacts a tailor:

- Customer Name is shared with tailor.
 - Customer Email Address is shared with tailor.
 - Customer Mobile Number is shared with tailor (optional consent).
 - Inquiry details are sent directly to tailor's registered email.
 - Tailor receives instant notification for new inquiries.
-

Ratings, Reviews & Feedback System

Customers can submit reviews only after receiving service from a tailor.

Rating System

- 1 Star = Poor
- 2 Stars = Fair
- 3 Stars = Good
- 4 Stars = Very Good
- 5 Stars = Excellent

Review Options

Customers can:

- Give 1–5 star rating
- Write custom review
- Upload garment photos
- Select predefined feedback tags

Hindi + English Feedback Tags

Positive Feedback:

- Excellent Stitching / बेहतरीन सिलाई
- Perfect Fitting / परफेक्ट फिटिंग
- On Time Delivery / समय पर डिलीवरी
- Professional Service / प्रोफेशनल सेवा

- Highly Recommended / अत्यधिक अनुशंसित
- Good Behaviour / अच्छा व्यवहार
- Quality Work / गुणवत्तापूर्ण काम
- Value for Money / पैसे की पूरी कीमत

Negative Feedback:

- Poor Fitting / खराब फिटिंग
- Late Delivery / देर से डिलीवरी
- Unprofessional Behaviour / गैर-पेशेवर व्यवहार
- Poor Stitching Quality / खराब सिलाई गुणवत्ता
- Overpriced Service / अधिक शुल्क
- Not Recommended / अनुशंसित नहीं

Tailor Actions

Tailors can:

- Reply to reviews
- Thank customers
- Resolve complaints publicly

Review Verification

- Only registered customers can review.
 - One review per completed service.
 - Admin moderation for spam and fake reviews.
 - Verified Review badge available.
-

Review-Based Ranking System

Every tailor receives:

- Average Rating Score (Out of 5)
- Total Reviews Count
- Customer Satisfaction Percentage

Example:

Rating: 4.8/5

Reviews: 320

Customer Satisfaction: 96%

Search Ranking Impact

Higher-rated tailors appear higher in:

- Search Results
 - Nearby Recommendations
 - Featured Listings
 - Category Pages
-

Advertisement Slots

Tailors can sponsor listings.

Technical Requirements

Frontend

- Next.js
 - React
 - Tailwind CSS
 - TypeScript
-

Backend

- Node.js
- Express.js
- PostgreSQL

Alternative:

- Supabase
-

Authentication

- Email OTP
 - Mobile OTP
 - Google Login
-

Storage

- AWS S3
 - Cloudinary
-

Maps & Location

- Google Maps API
 - OpenStreetMap
-

Notifications

- Email notifications
- WhatsApp notifications
- Push notifications

Security Requirements

- JWT Authentication
 - Password Encryption
 - Rate Limiting
 - Spam Protection
 - Secure Image Uploads
 - Review Fraud Detection
 - Camera Permission Validation
-

MVP Scope (Phase 1)

Launch with:

- ✓ Customer Registration
 - ✓ Tailor Registration
 - ✓ State → District → City Selection
 - ✓ Tailor Storefront
 - ✓ WhatsApp Contact
 - ✓ Nearby Tailor Search
 - ✓ Ratings & Reviews
 - ✓ Hindi + English Feedback Options
 - ✓ Review-Based Ranking
 - ✓ Camera-Only Portfolio Uploads
 - ✓ Customer Inquiry Email Forwarding
 - ✓ Admin Dashboard
 - ✓ Mobile Responsive Design
-

Future Features (Phase 2)

- AI tailor recommendations
 - Appointment booking
 - Measurement management
 - Fabric marketplace
 - Online payments
 - Order tracking
 - Video consultation
 - Multi-language support
 - Android App
 - iOS App
 - AI-powered review analysis
 - Customer loyalty program
-

Success Metrics

KPIs:

- Total Tailors Registered
- Monthly Active Users
- Searches per User
- WhatsApp Click Rate
- Tailor Conversion Rate
- Premium Subscription Revenue
- Customer Retention Rate
- Average Review Score
- Total Reviews Submitted
- Customer Satisfaction Rate

Target after Year 1:

- 10,000 Tailors
- 100,000 Customers
- 500 Premium Tailors
- Presence in all Indian States
- 50,000+ Verified Reviews
- Average Platform Rating Above 4.5/5

instead of storing only State → District → City manually, use official Indian administrative datasets and assign latitude/longitude to every city. Then nearby-tailor matching can be based on actual distance (e.g., within 5 km, 10 km, 25 km) rather than only administrative boundaries, which will give much better search results and recommendations.
